

SECOND NOTICE OF COMMENT PERIOD

LSA Document #16-4

INTERFERENCE OF A PUBLICLY OWNED TREATMENT WORKS**PURPOSE OF NOTICE**

The Indiana Department of Environmental Management (IDEM) is soliciting public comment on amendments to [327 IAC 5-17-11](#) concerning the definition of "interference" as it relates to pretreatment discharge to a publicly owned treatment works (POTW). IDEM seeks comment on the affected citation listed and any other provisions of Title 327 that may be affected by this rulemaking.

HISTORY

First Notice of Comment Period: January 13, 2016, Indiana Register (DIN: [20160113-IR-327160004FNA](#)).

CITATIONS AFFECTED: [327 IAC 5-17-11](#).

AUTHORITY: [IC 13-14-8-5](#); [IC 13-14-9](#).

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING**Basic Purpose and Background**

[IC 13-14-8-5](#) allows any person meeting the statutory requirements to present a written proposal to the Environmental Rules Board (board) requesting adoption, amendment, or repeal of a rule. A written proposal for the amendment of [327 IAC 5-17-11](#), the definition of "interference" as it regards pretreatment discharge of wastewater into a POTW, was presented to the board at its meeting in January 2015. The proposal and its supporters alleged that the definition at [327 IAC 5-17-11](#) is more stringent than the federal definition at 40 CFR 403.3(k) and that the state's definition creates vagueness and subjectivity in determining whether interference has occurred at the POTW. The board held a hearing on the proposal and considered it at several board meetings after the initial presentation. The board's final action at its October 2015 meeting was to direct IDEM to conduct rulemaking to revise the definition at [327 IAC 5-17-11](#) to be consistent with the federal definition. IDEM seeks comment on the affected citations listed, including suggestions for specific language, any other provisions of Title 327 that may be affected by this rulemaking, and alternative ways to achieve the purpose of the rulemaking. [IC 13-14-9-4](#) **Identification of Restrictions and Requirements Not Imposed under Federal Law**

No element of the draft rule imposes either a restriction or a requirement on persons to whom the draft rule applies that is not imposed under federal law.

Potential Fiscal Impact

The proposal before the board stated that the existing definition of "interference" is more stringent than the federal definition. Amending the state definition to be consistent with the federal definition would mean a lessening of potential fiscal impact. It is not possible to measure reduction of fiscal impact in the absence of an interference occurrence. A goal of the pretreatment program rules is to provide dischargers with the regulatory guidance to avoid violations such as interference.

Public Participation and Work Group Information

At this time, no work group is planned for the rulemaking. If you feel that a work group or other informal discussion on the rule is appropriate, please contact MaryAnn Stevens, Rules Development Branch, Office of Legal Counsel at (317) 232-8635 or (800) 451-6027 (in Indiana).

SUMMARY/RESPONSE TO COMMENTS FROM THE FIRST COMMENT PERIOD

IDEM requested public comment from January 13, 2016, through February 12, 2016, on alternative ways to achieve the purpose of the rule and suggestions for the development of draft rule language. IDEM received a comment letter from the following party by the comment period deadline:

CWA Authority, Inc., owner of the Indianapolis wastewater collection and treatment system (CWA)

The following is a summary of the comments received and IDEM's responses thereto:

Comment: CWA Authority does not believe that to conform the state rule regarding the definition of "interference" to the federal rule would compromise the ability of a pretreatment program to protect both the collection system and the wastewater treatment plant through actions against industrial users or the ability of IDEM to protect water quality. The existing state definition of "interference" at [327 IAC 5-17-11](#) is more restrictive than the federal definition at 40 CFR 403.3(k) and creates implementation challenges and uncertainty for the CWA Authority and industrial users. (CWA)

Response: In accordance with the direction of the board, IDEM has initiated this rulemaking to make the state rule definition of "interference" consistent with the federal definition.

REQUEST FOR PUBLIC COMMENTS
